Education

Purdue University, College of Science

Indianapolis, Indiana

Major: B.S. Computer Science and Artificial Intelligence

May 2029

GPA: 3.74

Technical Skills & Language Competencies

- Fluent proficiency in English, Native proficiency in Tamil
- Programming Languages: Python, Java, JavaScript, React (in progress)
- Graphic Design

Professional Experience

Avanee Polyclinic

Dubai, UAE

Patient Data & Technology Intern

Oct 2023 – Nov 2023

- Collaborated with health care technicians to aid the implementation of EHR (Electronic Health record) software, which streamlined patient data organization throughout the clinic

Gulf Medical University

Dubai, UAE

Future Scientist of UAE Research Mentee

Nov 2023 – June 2024

- Collaborated with experts and a group of 10 like-minded peers to develop foundational laboratory concepts and gain skills needed to write a high-level scientific research paper
- Conducted literature reviews to support the research project, strengthening critical thinking and evidence-based analysis skills

Campus Involvement

Purdue University, CS Club in Indianapolis

Indianapolis, Indiana

Secretary

Sept 2025 – Present

- Organized agendas, recorded meeting minutes, and managed email communications for 50+ members, ensuring clear and timely information flow.
- Streamlined club operations by improving record-keeping and communication, which enhanced meeting efficiency and member engagement.
- Co-organized Hack Indy, a 150+ participant hackathon, coordinating logistics, volunteer teams, and event programming to deliver a seamless competitor experience.

GEMS Founders Al Mizhar School

Dubai, UAE

Computer Science Club Co-Founder

Sept 2024 – May 2025

- Founded high school's first ever Computer Science Club, growing membership to 30+, and establishing it as the largest student organization
- Organized weekly coding workshops that built collaboration and helped students develop a strong programming foundation

Projects

Property Finder Website for D'code Properties (In progress)

2025

- Designed and built a responsive real-estate listing platform using HTML, CSS, and JavaScript to showcase available properties in an interactive and intuitive UI.
- Planning to implement a React-based interface and backend integration to enable brokers to add, edit, and manage property listings dynamically.

Awards / Honors

Golden Hammer Award for Outstanding Club Event

2026

- Recipient of the Golden Hammer Award for Outstanding Club Event in recognition of Hack Indy's exceptional impact and execution.
